ECOLOGY PROGRAM

Our mission as an Ecology Program is to foster a culture of environmental care within the educational community through awareness activities that provide the necessary tools for them to develop knowledge, attitudes, skills, and values promoting environmental stewardship and sustainable development.

To achieve this, we have a committee of volunteer moms dedicated to ecology who support projects and campaign operations. This committee is assisted by academic and administrative staff to ensure that this effort is sustained across all areas.

CATECHISM PROGRAM *DELIVERED BY VOLUNTEER PARENTS - CCL (CENTRO CULTURAL LOYOLA)*

The Loyola Cultural Center offers a Catechesis program inspired by Ignatian Spirituality. It is a 7-year program that includes grades from Pre-Primary to 6th grade, delivered by volunteer catechists (school parents) trained and accompanied by the CCL. This proposal contemplates the participation of families, not only of the children who participate in it.

The CCL program is experiential (not dogmatic or moralizing). Boys and girls are accompanied in their discovery of the God of Jesus and his invitation to form a community. The program includes children celebrating 3 Sacraments; Reconciliation, First Communion (3rd grade) and Confirmation (6th grade)

WELCOME COMMITTEE

WELCOME COMMITTEE

This committee is led by the PBS and aims to integrate new ISR families to build a culture of inclusion and collaboration in our community of students, parents, and administrators. This is done through several strategies:

- Host Moms/Dads- Consists of assigning a host mom/dad for each new family, who supports the integration process into the ISR community.
- Social events that promote the integration of families
- Committee for the planning and implementation of the International Fair that takes place every school year.

Contact through PBS -

SA Campus pbssa@sanroberto.edu.mx

VA Campus pbsva@sanroberto.edu.mx

INTERNATIONAL FAIR

One of the subcommittees of the Welcome Committee is in charge of inviting moms/dads from each of the countries that are represented in the ISR community to prepare an exhibition table with information from their country (traditions, crafts, tourist activities, traditional food) to participate within the International Fair in which students, teachers and staff can visit to learn about the different countries that make up the ISR community.

PARENTING EDUCATION PROGRAM

This parenting program is delivered by Universidad Iberoamericana through San Roberto with the following goals:

- Provide parents with strategies to improve their family's environment and their involvement with their children's education, guidance and learning opportunities.
- Provide parents with tools to face and solve challenges in their role as parents.

There are 12 sessions that are delivered bimonthly throughout the school year in the evenings.

MEANINGFUL EXPERIENCES

San Roberto International School

MEANINGFUL EXPERIENCES

This is a program for middle school students, whose objective is to facilitate experiences that put them in contact with society so that solidarity and social commitment are norms that govern their lives.

Parents can participate in the program as a partner company or business. It consists of offering time for students to live the real experience immersed in a business atmosphere. For parents interested in being part of a social responsibility educational program.

DESTINATION IMAGINATION

DESTINATION IMAGINATION

Destination Imagination (DI) is a project based, kid-driven program that teaches kids to be innovative problem solvers. Using STEAM, teams of students collaborate, think outside the box and create unique solutions to one of seven different challenges in preparation for a fun, problem-solving competition. Each DI team is a group of between 2 and 7 members that work together to develop a solution to one of the Team Challenges. Teams are responsible for designing and creating 100% of their Team Challenge solution.

Parents are invited to participate as Team Managers. Team managers are there to supervise, provide resources, and teach skills, teamwork and problem-solving skills. The Team Members generate the ideas, execute the ideas, and plan a performance showcasing their ideas.
